Scures a steamer leaves the port for Australia or elsewhere but it takes with it one or two deserters from the force. What are the merits of their quarrel with the authorities we are anable to say; but it is a question regarding pay and allowances, and it would certainly appear a shortsighted policy on the part of Shanghai, after having gone to the expanse of paying the fares of these men from England, to lose them as soon as they become experienced members of the force. One of the local papers suggests that discontent with the pay is only a pretext, and not the real cause of the new dissatisfaction. The position of a policeman in Shanghai differs widely from that of a policeman in London. His outdoor duties are contined to patrolling streets crowded with Chinese, and doing what he can to regulate the traffic. In London, upon the other hand, it calculated that there are fully ten friendly cooks upon each policeman's beat, so that the monotony of his patrol is relieved not only by pleasant gossip but by the more substantial encyments of cold mutton and beer. It is probable that this has much to do with the dissatisfaction in the ranks of the Shanghai police. But short of importing several hundred cooks is significant as coming from a Chinaman: legitimate griovance is to be get over. Certain from England, it is difficult to see how this it is that unless something is done Shanghai will soon be left entirely without European

THE ESTIMATES FOR 1886

The following report by the Acting Colonia Secretary and Acting Auditor-Generalisattached to the Estimates for 1886 laid on the table of the Legislative Council on Wednesday:names from the letters of which they are form-

HEVENUE. 1.—The revenue actually received during 1884 amounted to \$1,173,071, and the revenue for 1886 is estimated at \$1,274,973, which gives an increase of 3101,902.

2.—This increase is due principally to the larger revenue expected to accrue from licences, taxes, and miscellaneous receipts. 3.—Licences show an increase of \$104,073, due chiefly to the increase expected from the proposed spirit farm, and the larger sum now realised from

the opium farm. Taxes show an increase of \$37,618, due chiefly to the increase of one per cent, on the police as-

Miscellaneous receipts show an increase of 4. The items which show a falling off in the revenue for 1886 as compared with that for 1884 are land revenue; fines, forfeitures, and fees of

Court; fees of office; and interest. 5.-Land Revenue will show a decrease \$9,500, due to fewer land sales and to-diminished receipts from the Quarry Farm. Fines, forfeitures, and foes of Court will show decrease of \$5,738; and

Fees of office will show a decrease of \$3,893. These two items fluctuate from year to year. The estimate now made is based on the actual receipts during the first six months of the present year. Interest will show a decrease of \$36,962, due to from the Banks.
